

Friends of Fort Owen

Our Mission

Our mission as a non-profit organization is to work in partnership with Montana State Parks to build our collective capacity to save, restore, maintain, develop, enhance, and interpret Fort Owen State Park and its associated sites and artifacts for future generations.

We work to build recognition of the historic significance that Ft. Owen played in the settlement of the Northwest and United States and strive to enhance its visibility as an educational and economic/tourism asset to the community of Stevensville, Ravalli County, and the State of Montana.

Fort Owen by Peter Toftt in 1866
